Overnight Places: The overnight places in Russia are often so-called hotel sites. This is the car park at the hotel which gives us the necessary infrastructure. The other overnights are in regular campsites of local standard. They might be chosen for being a good starting point for the city tour rather than being a holiday site.

Supplies: Electricity and water are available daily. Grey water disposal is available on most sites. The re-fill of gas bottles may be arranged with the tour leader if really required.

Safety & Security: The overnight places are safe. In the more touristic areas, you should beware of pickpockets.

When putting this trip together, we are still in the situation that the SARS-Covid19 pandemic is affecting our lives and travels. Please note our general information on this topic in the travel catalogue, as well as our **Corona** promise.

We assume that everyone who goes on a group trip has also taken advantage of the vaccination offer in order to protect themselves and their fellow travellers from infection. Unvaccinated persons could be refused entry or, when crossing the border – regardless of the direction – may be quarantined, which cannot be reconciled with the travel plan. Should you suffer from a medical condition that prohibits a vaccination, please contact us.

The withdrawal of the United Kingdom from the EU and the only recently concluded contracts for future cooperation may result in changes to the travel documents required. Please also note that there is a special information available for **customers from the UK**.

If you would like to take the opportunity to see **Kaliningrad (Koenigsberg)** and the Curonian Spit, you have the opportunity to join the tour group Route 12 "White Nights in St. Petersburg" for five days after your trip. The trip starts on June 12th in Malbork; leads from there to the Kaliningrad area and on to the Curonian Spit. Participants of the trip "Moscow-St. Petersburg" may book this section (4 nights, 2 meals, 1 visit & extended visa) at the combined price of 360 € per person.

The Republic of Belarus regularly makes negative headlines in the news. The last dictatorship in Europe is on the brink. We thought about whether we should reschedule the routes that lead through the country. When the catalogue went into print, the situation was tense, but not dangerous. Therefore, the well-known routes remain as they were. If the situation worsens and, for example, the safety of our participants is endangered or a travel warning is issued, we are able to travel through Ukraine to Russia at short notice. The tour length would be identical.

ITINERARY:

Day 1 10.05.2022 Warsaw

The official tour start is in Warsaw. Here the participants travelled individually or met the day before and completed the route through Poland together. After the welcome through the tour leader, you will be briefed on the next day's itineraries. This is followed by a welcome dinner in a nearby restaurant.

overnight fee, Welcome Dinner

Day 2 11.05.2022 Warsaw

In the morning we will take the bus to the city centre, where the local guide is waiting for us. She will take us around the old town and various public places. In the afternoon you may return to the campsite with the group or stay behind and return yourself. In the evening the tour leader will brief you on the next driving stage and the border crossing into Belarus. What is a patronymic? What about the customs declaration? Am I really allowed only one piece of electronic equipment? Many questions, that your tour leader is able to answer.

overnight fee, transfer, local guide

Day 3 12.05.2022 Warsaw – Brest

We leave Warsaw early to travel to Brest. We meet up at Terespol at the border. Patience is a virtue that is valuable today. One of our tour leaders remarked: "The bureaucracy and handling at the border might seem irritating. One follows a stubborn system, that does not appear to make sense to us. Play along, stay friendly and cooperate." Once you have passed across this border you will cherish the freedom of travel in the EU. Since 2010 there is a customs union of which Belarus and Russia are part of and which will make the next border more easy. We only drive a few kilometres after the border to Brest where our overnight place is situated at a hotel. First thing is a blessing of our vehicle by the local priest and a traditional welcome with bread and salt (and vodka of course). In the evening there is a group dinner and anyone feeling like it may take a stroll through the town centre which is situated just across the road.

overnight fee, dinner

Day 4 13.05.2022 Brest

We look at the town, which has the status as a "City of Heroes". The most impressive monument is the fortress which was held several days against the enemy forces in 1941. We attempt to visit the regauging hall, where the waggons of the railway from the Russian narrow gauge can be switched to the European rail. The plant management will only decide at short notice whether the visit is feasible. It is the same with the souvenir factory where the matryoshka dolls are made from wood and painted in bright colours and where many other handicrafts are turned into more or less tasteful souvenirs. The day is filled with various new impressions. If you want to see even more, you can, for example, visit the Railway Technology Museum a few hundred meters from the parking space.

overnight fee, local guide, entry fee

Day 5 14.05.2022 Brest – Minsk

It is a so-called driving day as we drive towards Minsk – on the M1 - the motorway to Moscow. This was known as "runway" as it was the fastest route to Moscow in WWII and it was turned into a main route once more for the 1980 summer Olympics. Belarus takes its name from the cardinal direction "bely" meaning West. The largest landlocked country in Europe Belarus is streaked by rivers and small hills. The highest elevation is 345m NN. Several lakes make the country appear rather swampy. Fields and birch forest and small villages and hamlets are characteristic for today's drive. Go along with the tour leader or travel alone, the road is mainly four-lane and well maintained. At the border of each region, you find a police post and sometimes motorhomes are stopped to satisfy the curiosity of the people on duty. At lunchtime, the city of Neswich is the first place to stop for lunch. The small town belonged to the von Radziwills family for around 400 years and is now partly lovingly restored. The castle and the town hall are just a few of the building's worth seeing. The town of Mir is only a good half hour north, about 85km from Minsk is the next option. The castle, built in the 16th century from brick and stone has five towers and meant to be a fortress. The façade is decorated in details and is both classy and impressive. After approx. one hour of sightseeing, move on to the capital city. The entrance to Minsk is impressive for everyone who is here for the first time, because most of the almost 2 million inha-

bitants live in satellite towns. On the drive to the hotel parking lot in the centre you can already see the spacious inner city, which has been laid out as an "open-air museum of Soviet architecture".

overnight fee

Day 6 15.05.2022 Minsk

With a bus and local guide we explore the Byelorussian capital city, which was nearly completely demolished during World War II. Therefore the architecture is mostly communistic with wide avenues and monuments, but without a character. We will see the centre with the cathedral and various monuments worshipping the communist cause and the great war. We will meet the Russian soul in the farmers market. Dinner will introduce us to the local kitchen. The locals eat a lot of bread with the starters and the salad. Main course often comes out of the oven, like pork with mushrooms or potato products like Draniki or potato pancakes with butter sauce. Dessert may be a cake. Don't be surprised if the dishes follow quickly, as fast service is considered good service. Time will pass quickly, since there is a folklore show going on.

overnight fee, bus, local guide, dinner, folklore

Day 7 16.05.2022 Minsk - Gomel

We leave Minsk behind. On our way south-east on the M5, we recommend a short detour to Gatovsky Manor after almost 200 kilometres. Lieutenant General Michail Gatovsky had the German-Lithuanian builder Viktor Schröter built a country estate here from 1890 to 1893, which combines neo-gothic and neo-renaissance. The ensemble consists of an inconspicuous castle, a few farm buildings and a 10-hectare park. The premises were recently professionally restored and are well worth a visit. Then we continue on the M5. When we arrive in Gomel, we still have to return our toll boxes. Depending on the time, you still have the opportunity to visit the city individually. With over 500,000 inhabitants, Gomel is the second largest city in Belarus. The Gomel region is considered one of the most contaminated areas by the Chernobyl disaster. Today it can be seen that in many areas the radiation exposure has clearly decreased to values that no longer pose a health risk.

overnight fee

Day 8 17.05.2022**Gomel - Bryansk**

We continue towards Bryansk. But first we have to go to the very south of Belarus, where there is a shared border with Russia and Ukraine. We owe it to this fact that we can go to Russia here because there is still a real border post. We hope that the border clearance will go as smoothly as last time, because after the entry there are still about 270km to drive. We will probably only reach our parking space at Bryansk Ring Road towards evening.

overnight fee

Day 9 18.05.2022**Bryansk**

Today we're taking it a little slow. The bus takes us to the city, which is about 20km away, to stroll a little and solve some administrative tasks. On the way back we make a stop at the so-called partisans meadow, a large memorial in honour of the partisans of World War II. Not only the monuments, the eternal flame and the list of the fallen are worth seeing. There is also a small museum and an exhibition with various military equipment. In the evening we come together for a meal in the restaurant of our campsite.

overnight fee, bus, local guide, dinner

Day 10 19.05.2022**Bryansk – Kaluga**

Since the parking space in Kaluga is not that attractive, we should take the time to get there, so it makes sense to make a detour to the glass factory in Diatkovo. Crystal production was founded in 1790 by the famous Russian factory owner Maltsovs and has been developing for over 200 years. Since then, a large selection of household items made of glass has been produced, glasses, goblets, wine glasses, decanters, vases and much more. Not only individual pieces for architectural decoration have found national and international approval. In the attached museum you can get an impression of the rich factory history. In the afternoon we will visit the Museum of Cosmonauts in Kaluga, which is only 200m away from our parking space. The cosmonaut museum not only shows the history of space travel in Russia, you can also enter the Mir space station and admire various flying objects that have already been in space.

overnight fee, Entrance fee

Day 11 20.05.2022**Kaluga - Moscow**

Another driving stage and the Russian Capital is reached. Moscow has large ring roads. We have to go from the south to the north-east of the city, an - depending on the traffic and weather - this is an adventurous undertaking, in which we sometimes move on 12-lane roads. Our parking space is located at a hotel near the city centre. Not exactly a cheap option, but thanks to the location you can quickly go "into town" on the first evening to stroll.

overnight fee

Day 12 21.05.2022**Moscow**

Today a tour of the Moscow Metro is on the programme. It is a short walk from the location to the nearest subway station where everyone gets a ticket. Together with a local tour guide, you will go to the most interesting stations. The most attractive are visited and explained. In the early afternoon you can then pursue your own interests with the day ticket.

overnight fee, metro, local guide

Day 13 22.05.2022**Moscow**

Today you will explore the Russian capital with an extensive sightseeing program. We visit the Red Square, see the Gum department store and St. Basil's Cathedral. Of course, we visit the Kremlin with different churches, see the tsar cannon and the tsar bell. We will see houses with famous names such as the Bolshoi Theatre, the Pushkin Museum and Lomonosov University while the bus travels between the boulevard and garden ring and on to Sparrow Hill. The New Maiden Monastery and the Cathedral of Christ the Saviour are the most important sacred buildings. But we also see modern buildings in which other gods are worshiped: the various sports stadiums and Moscow City with the skyscrapers. The city combines a variety of architectural styles, Art Nouveau, Neoclassicism and of course the famous Russian confectioner style. Between the rows of houses are extremely wide streets, parks and a multitude of monuments that commemorate famous people and special events. Strengthened by a lunch of Caucasian cuisine, there is also some free time. In the late afternoon we are back at our vehicles. A tip for the evening, cultural

program in the city, maybe you can stay back to visit one of the famous museums that are open longer on weekends. The Bolshoi and other theatres or the famous circus always have something in their programme.

overnight fee, bus, local guide, entrance fee, lunch

Day 14 23.05.2022**Moscow**

This day is at your disposal. Make use of the optional programmes or explore the metropolis on your own - your decision. Perhaps visit the bohemian Arbat district, the KGB Museum or the famous Moscow Circus. Your guide will also give you some recommendations.

overnight fee

Day 15 24.05.2022**Moscow - Sergiev Posad**

The group leaves Moscow in a north-east direction. Since our parking space is already in the northeast of the city, we quickly reached the arterial road that leads us through the villages to Sergiev Posad on the Golden Ring. The most easterly point of the journey is reached here. The history of the city of Sergiev Posad is closely connected with the name of the Russian religious dignitary and politician St. Sergius of Radonesh. He became a monk and founded the Trinity Monastery here in 1337. The surrounding villages and settlements became a town called Sergiev Posad at the end of the 18th century. The city changed names several times in the last century, at the beginning of the 20th century it was called Sergiev, then in 1930 it was renamed Sagorsk, today - again Sergiev Posad. We go on a city tour and visit the monastery.

overnight fee, local guide, entrance fee

Day 16 25.05.2022**Sergiev Posad - Valdai**

The day's stage, which is quite long at 420km, requires the group to set off again in good time. In the afternoon we set up camp on the shores of Lake Valdai, we are standing at a hotel. Valdai is still known today for its bells, although the bell factory closed years ago. Take a stroll along the lake and maybe there will still be time for the bell museum. But not too long, because in the evening we have dinner together.

overnight fee, dinner

Day 17 26.05.2022**Valdai – Veliki Novgorod**

Novgorod is the next destination and with over 1150 years one of the oldest cities of our trip. Actually, the real name of the city is "Veliky Novgorod" (Great Novgorod). The title Veliky is given because of its wealth and influence, which was due to its location on the most important trade route between Scandinavia and Greece. Even the Vikings moved through this area in the early Middle Ages. The outside of the Kremlin with the cathedral is rather simple, but still impressive. After the vehicles have been set up at the overnight stop, the city is visited.

overnight fee, transfer, local guide, entrance fee

Day 18 27.05.2022**V. Novgorod – St. Petersburg**

Before heading to Petersburg, there is still time to visit the open-air museum of folk wooden architecture, which is located in the south of Novgorod. This architectural and ethnographic museum, where you can learn about traditional folk culture, consists of four ethnographic zones that represent typical farm estates with all the outbuildings. The 33-hectare complex is located on the grounds of the former aristocratic estate "Oryol Manor", of which two buildings, fragments of the main streets, individual old trees and a pond with an island have been preserved. If you go directly north, you will reach the southern suburbs of Saint Petersburg around noon. Our overnight accommodation is not far from the city's ring road, with good transport links. After the group has settled in, the tour guide will reveal some logistical details about the location in addition to the programme (shopping options, transport options, etc.). If you feel like it, you can already take the bus and subway to the centre and make your first explorations or stroll in the nearby shops.

overnight fee

Day 19 28.05.2022**St. Petersburg**

Full day tour by bus and local guide: It is one of the longest sightseeing programmes that the group can expect on this day. The local guide will explain something about the city's history to you on the way to the centre. You will then see the great Nevsky Prospect, the Kazan Cathedral, the Admiralty, the Russian Museum, Grand Hotel "Europa" and the "Blood Church" before you are given time to stroll through the souvenir market. Then it goes to the Decembrist Square with the monument to Peter the Great (Brazen Rider)

and to Isaac's Cathedral, which is visited. From there the journey goes with interruptions over the Dworzowij bridge to the stock exchange, the Rostral columns, the naval cadet school as well as the armoured cruiser "Aurora" and the Smolnij monastery. Our tour of the city ends not far from the Hermitage, which we visit for about two hours. The tour guide will then arrange a meeting point with you for later, so that everyone can get a first impression, following their own interests.

overnight fee, bus, local guide, entrance fee

Day 20 29.05.2022**St. Petersburg**

Full-day excursion by bus and guide to Peterhof, one of the most beautiful Tsar's summer residences, whose magnificent park with water features, according to the statement of the contemporary French ambassador, even exceeds Versailles. But don't forget your sunglasses, otherwise you run the risk of being almost dazzled by the sheen of the countless fountains and the shimmering water upon arrival. After visiting the park, you will have free time to stroll through the park. If there is enough time, we can also make a detour to Kronstadt. Because of the naval base on Kotlin Island you can see ships and submarines of the Baltic fleet, former fortifications and some monuments. The Marine Cathedral is definitely worth a visit because the structure is impressive. In the early evening the bus brings the group back to the overnight site.

overnight fee, bus, local guide, entrance fee

Day 21 30.05.2022**St. Petersburg**

A trip by bus to the southwestern suburb of Pushkin, also known as Tsarskoye Selo (Tsar's Village). Here is the Catherine Palace with a large park. Built by his wife Catherine in the time of Peter the Great, the Catherine Palace was extensively expanded and embellished by Catherine II the Great. In addition to some of the private and representative rooms, we will of course visit the reconstructed Amber Room. Afterwards there will be time for individual exploration of the extensive park. The grotto, the Cameron Gallery, or the Hermitage are the most important buildings in the park alongside bathhouses and pavilions. Of course, you can also spend your free time in Pushkin. There are various references to the famous poet, an interesting farmers market and various places to stop for a break. In the late afternoon we are back at our vehicles.

overnight fee, bus, local guide, entrance fee

Day 22 31.05.2022**St. Petersburg**

Day at leisure - can be used for optional programs or for exploring the cosmopolitan city of Saint Petersburg on your own. Erected in a very short time - on the orders of the great reformer Peter I - on the swamps of the Neva Delta and the bones of thousands of stonemasons and builders, one of the youngest metropolises is emblazoned both in its original splendour and in the splendour of modernity. The best thing to do is to stroll along the Neva quay yourself and let the backdrop of baroque palaces and the magic of the White Nights sink in, or immerse yourself in the hustle and bustle of Nevsky Prospect, where you can buy everything your heart desires. In the evening we say goodbye to the participants who have only booked the shortened part of the trip and are leaving tomorrow.

overnight fee, dinner

Day 23 01.06.2022**St. Petersburg – Toila**

We continue, westwards via the M11 we reach the border town of Ivangorod. Entering the EU is a bit more complex again, but with a lot of luck you can still enjoy the afternoon on the pitch. We are staying on a campsite attached to a sanatorium, not far from the coast.

overnight fee, dinner

Day 24 02.06.2022**Toila**

The idyll on top of the cliff, walks to the beach or the nearby small military cemetery, relaxing in the spa and good food also give you the opportunity to clear your head for new impressions. That is why we have included a free day here.

overnight fee

Day 25 03.06.2022**Toila – Tallinn**

We continue to Tallinn. Here in the Baltic States, some of the participants will certainly set out on their own again. After a short time, they meet at the Palmse manor, which we visit. This typical country estate is partly a hotel and partly a museum and, with its beautiful main building and the surrounding park, is a prime example of such a complex. There are other options for optional stops along the way: Captain's Village, the Botanical Garden, Estonia's celebrity cemetery or the Tallinn TV Tower. In the late afternoon everyone comes back to the pitch.

overnight fee, entrance fee

Day 26 04.06.2022**Tallinn**

Insiders say that Tallinn is the most beautiful of the Baltic capitals. Tallinn was also the European Capital of Culture 2011. Of course, a visit to the UNESCO city is also part of the program. The bus with the tour guide brings the group to the old town quite early, after which the tour takes place on foot. After the end of the program, we will eat typical Estonian cuisine in a restaurant in town. After that, the guide will give all those who want to stroll even longer the necessary information on how to get back to the campsite. Since there is a good bus service in Tallinn, it is not difficult.

overnight fee, transfer, local guide, lunch

Day 27 05.06.2022**Tallinn – Riga**

Estonia, the northernmost and, one might say, the most progressive of the three Baltic states, will be left behind after just two days. Latvia with its capital Riga is the next destination. Halfway there, you may stop in Pärnu and stroll through the town. After the lunch break, Latvia will soon be reached. Along the way there are always delicious fresh products on the roadside. Another challenge is entering the centre of Riga, because our campsite is very centrally located. A dinner is scheduled for the evening.

overnight fee, dinner

Day 28 06.06.2022**Riga**

Riga is the largest of the Baltic capitals and is relatively spacious. This morning we go on a city tour of the Hanseatic city: with a local guide and bus. The centre, the House of the Blackheads, the Art Nouveau district and much more. After a two-hour walking tour, there is free time here, e.g. to visit the large market in the zeppelin halls. If you don't want to go back with the group, you can stay in town and use public transport to return. The campsite is easily reached again.

overnight fee, transfer, local guide

Day 29 07.06.2022**Riga – Trakai**

Driving south from Riga, there are two optional sightseeing points on today's stage: On the western route, after about two hours of driving, you will reach the border with Lithuania, which we will pass again uncontrolled. About 50km to the south is the "Hill of Crosses". During the Soviet Union, the Lithuanians built a monument to their mostly Catholic faith here. Although the communists regularly levelled the many crosses with bulldozers, they were put up again after a short time. In the past 25 years many of our groups have also placed crosses. On the eastern route, take the A7 and turn right at Bauskas to visit Rundāle. Rundāle Palace is a large representative house whose landlords held important positions in both Courland and the Tsarist Empire. Not only the house, this complex known as the "Versailles of the Baltic States" is worth seeing. A stroll through the French and the rose garden is worth this detour. You then have the option of turning to the west route and driving past the Hill of Crosses, or taking the direct route to Trakai. The campsite near Trakai (formerly the Lithuanian capital), which we reach this afternoon, has a cosy atmosphere. It is just under 3.5 km to the village, but you might want to take a walk to one of the lakes; the shore of Lake Akmena is only 500 m away. In the evening there is a typical national meal with folklore.

overnight fee, dinner, folklore

Day 30 08.06.2022**Trakai/Vilnius**

Today we will visit the next Baltic capital by bus and guide. Lithuania and Vilnius developed rapidly after perestroika, which can be traced back to the influence of the Lithuanian-born Americans, who saw it as their duty to support the old homeland also economically. They quickly invested in the restoration of cultural and historical buildings and made a name for themselves with cultural festivals in order to revive tourism. In 2009 at the latest, when Vilnius was the European Capital of Culture, the city was given the finishing touches. During the several-hour tour of the old town you will see, among other things, the Peter & Pauls Church, the old city wall, the town hall and the Church of St. Anne. Stroll with the group and also during the two-hour free time through old town streets. In the afternoon on the way back we also make another photo stop in Trakai at the moated castle.

overnight fee, bus, local guide

Day 31 09.06.2022**Trakai – Ruska Wies**

Our journey will soon come to an end. As we continue to Poland, the first thing we say is goodbye to the Baltic States. Over a flat, slightly hilly landscape and on avenues, it goes in the middle of the Masuria, a region that is associated with rest and relaxation. Our last campsite is in Ruska Wies, idyllically on a small lake with a barbecue hut. An ideal place for the farewell evening. The evening ends with a meal together.

overnight fee, dinner

Day 32 10.06.2022**Ruska Wies**

Today they go their separate ways: some start their journey home; others extend their vacation in Masuria. We wish you all the best and hope to see you again on our travels.
